Single Tax

British Columbia and Western Canada are taking the lead in the "Single Tax" movement, and in a very short space of time the cities, towns and rural municipalities will levy taxes on the value of land only, exempting all personal property and improvements.

"Single Tax" has passed the experimenting stage, and among the most enthusiastic supporters in Edmonton and Vancouver, has proved a success beyond expectations, and throughout Alberta already the idea of exempting all improvements from taxation is becoming general. Many towns, villages and cities will see the single tax system next year. No greater encouragement could be offered to these places for the improvement of property than to exempt the improvements from taxation, and by taking the value off all lands which would be increased by the growth and development of the towns as a whole, would more than make up the loss of revenue.

The idea of single tax was unanimously approved of at a meeting of the Alberta Union of Municipalities. Henry George, who is the father of the single tax movement, briefly explains the idea as follows:

"We propose to abolish all taxes save one single tax levied on the value of land, irrespective of the value of the improvements on or in it."

"What we propose is not a tax on real estate, for real estate includes improvements. Nor is it a tax on land, but only land having value irrespective of its improvements, and value is the tax that in proportion to that value."

"Our plan involves the imposition of no new tax since we already tax land values in taxing real estate. To carry it out we have only to abolish all taxes save the taxes on real estate, and to abolish all of that which now falls on buildings and improvements, leaving only that portion of it which now falls on the bare land, increasing that so as to take as nearly as may be the whole of economic rent, or what is sometimes styled the unearned increment—there is no doubt."

One of the fundamental reasons he gives for urging the adoption of single tax is: "It would enormously increase the production of wealth by the removal of the burdens that now weigh upon industry and thrift. If we tax houses there will be fewer and poorer houses; if we tax machinery there will be less machinery; if we tax trade there will be less trade; if we tax capital there will be less capital. If we tax savings there will be less savings. All these taxes therefore that we should abolish are those that repress industry and house would build. But if we tax land values there will be no less land."

Crop Situation

Winnipeg, Nov. 11.—Further details of the Northwest Grain Dealers' association report on the crop situation tend to make the outlook not only for this year, but also for the next year, anything but bright. The report says that only seventy percent of the grain has yet been threshed and about fifty million bushels, estimated, remained in the stock, with no immediate prospect of seeing a separator. The setting in of a thaw would almost ruin it or at least reduce it several grades.

The report is not hopeful of the grain threshed, saying that sixty percent of it is four or five per under. Of the fifty million bushels remaining in the west half will be needed for seed and feed. The prospect is darkened by the announcement that very little fall plowing has been done owing to the sudden setting in of winter, and that means delay in the spring.

Further comment on the congestion of traffic at Fort William is made. It is attributed to the incoming coal from the west due to the shortage caused by the western miners' strike.

Strike Settled

Lethbridge, Nov. 14.—Voting is in progress in this district among the miners on the proposed terms of settlement, but no official information is obtainable. This district includes Lethbridge, Taber, Diamond City and Klipp. The voting is completed in all but Taber, and will be finished there to-morrow. Mr. Garner, local chairman in charge of the plinkies, says that all information will be given out at 7 p.m. on Friday morning. The vote is all in. The statement was made today that only twenty-eight voted against the terms here.

Hail Insurance

The members of the Glendon Local No. 96, of the United Farmers of Alberta in meeting last Saturday adopted a hail insurance resolution in which a demand for insurance was set up along the lines suggested in a recent issue of this paper. The Glendon Call reports the resolution as follows:

"Whereas, droughts, excessive moisture, stock diseases and the like may be contracted by irrigation, drainage and science, while hail storms are totally beyond all human control, and

"Whereas, farmers who grow grain are the men who assume the risk of putting Alberta under cultivation, diversified farming based upon alfalfa, etc., being impossible before the raising of grain has put the soil into proper shape for farming, and

"Whereas, it has been fully demonstrated that sufficient funds can not be raised to cover the losses by farmers only who make application for insurance on the present basis of risk, and

"Whereas, it has been fully proven to the farmers of Alberta that no part of the Glendon can be considered free from danger of hail storms, and that it is absolutely impossible for the average farmer to continue farming in Alberta without some kind of hail insurance, and

"Whereas, it is perfectly unjust that speculators, who are making idle money on the rise in value of lands due to work done by grain growers, should not participate in the risks of storms, and

"Whereas, parties who cannot pay a tax of from \$2 to \$5 per quarter section to provide against losses owing to hail storms, are not qualified to own land in Alberta,

"Therefore be it resolved:

"That this Farmers' Union No. 96, U.F.A., respectfully urge the government of Alberta to introduce an act at the next session providing for a tax on all taxable land in Alberta, to cover damages to crops, by hail, to the extent of \$500 per acre for total loss, the amount of such taxation to be determined yearly by the actual losses of the previous year, so as to cover any deficits that may have occurred the previous year, and that a copy of the resolution be forwarded to the government of Alberta and that a second copy be mailed to the secretary of the U.F.A., at Calgary with the request that he forward copies to the secretaries of all local unions of the U.F.A., requesting all unions to support this resolution and to notify the government and the secretary of the central union of the U.F.A."

"We apologize for all the mistakes in former issues," humbly remarks the editor of the Evening Gazette as he wipes his hands and leans the towel up in the corner. "They were inexcusable, as all an editor has to do is to hunt news, and clean the rollers and set type, sweep short items and fold papers and write wrappers, and make the paste and mail the papers, and talk to visitors, and distribute type, and carry water and saw wood, and read the proofs, hunt the shears to write editorials and dodge the bills and dun delinquents, and take crossings from the whole force and tell our subscribers that we must have some money—we say that we've no business to make mistakes while attending to these little matters, and getting our living on hopper tail soap, flavored with imagination, wearing old shoes, and no collar and a patch on our pants and obliged to turn a smiling countenance to the man who tells us our paper isn't worth a dollar any more, and that he could make a better one with his eyes shut."—Ex.

It would be impossible to figure what a benefit The Family Herald and Weekly Star of Montreal has been to the West. It affords the greatest amount of genuine good reading for every member of the family and its benefits to the farming community in its agricultural pages are worth hundreds of thousands of dollars every year. It is a practical farm paper in every respect and there is no farmer in Canada who cannot profit by reading it. Two cents a week, one dollar a year—the price of one bushel of wheat for a whole year's subscription to that great paper, not to speak of the beautiful premium picture "Home Again," size 22 x 30 inches, ready for framing. It asks one wonder if the publishers pay their paper bills. Any home in this western country that does not receive the Family Herald and Weekly Star for \$12 will miss a bargain indeed.

LOOK HERE! PEOPLE OF BOW ISLAND

We are preparing to place before you the most extraordinary opportunity that it has been your fortune to experience. Nothing approaching it in value to our customers good fortune have we been selected as the means by which the people of this vicinity are to reap this great profit.

The Campaign is on in Bow Island THE OPPORTUNITY IS HERE.

You have heard of the Great Advertising Campaign FOR

.. Rogers' .. Silverware

DEAR MADAM! You want Silverware

Of Course You Do. Every Woman Does. We want your trade. If you give us your trade, you can have your Silverware. That is fair, isn't it?

IT IS

THE BEST KNOWN MAKE IN THE WORLD. THE BEAUTIFUL "IMPERIAL" DESIGN. THE GENUINE ROGERS' SILVERWARE. ABSOLUTELY & PERMANENTLY WARRANTED.

It will make your Table look Rich and Attractive. It is less than Cheap Imitations. It will be the full Rogers' Standard in Quality.

A card telling you how to get the Silverware will be given you or mailed on request.

BOW ISLAND

"THE GAS CITY."

The Bow Island Natural Gas Field is the greatest in the world; present production, 63,000,000 cubic feet every twenty-four hours.

Fifteen additional wells are being, or will be, drilled at Bow Island. One hundred carloads of material are being shipped to Bow Island to carry out this gigantic undertaking.

Natural Gas caused Medicine Hat's population to increase from 3,000 in 1905 to an estimated population of 10,000 in 1911. The combined production of the Medicine Hat Gas Field is less than one-fourth that of Bow Island.

Bow Island will unquestionably become one of the large manufacturing centres of Western Canada

Bow Island has for its size more stores than any town in Western Canada, included among which are four general stores, five implement warehouses, three hotels and another contemplated, three restaurants, two barber shops, two pool rooms, one drug store, two hardware stores, two meat markets, millinery and dressmaking parlors, one bank, two harness shops, two livery stables, four real estate, land and insurance offices, three lumber yards, one gents' outfitting store, one tailor, one newspaper and job printing plant, and large blacksmith shop, fitted with all modern machinery. There are two elevators, of 35,000 and 40,000 respectively, with large coal sheds adjoining. In addition, realizing the importance of the town, the C.P.R. has just erected a completely modern and up-to-date depot, with a 300 foot platform.

All this has been accomplished within two years. It can easily be conceived that with the introduction of more capital to develop its resources, Bow Island, rapid as its growth has been, will more than double in size the next two years.

Our property, located as it is in the heart of Bow Island, is in the direct line of the present growth of the town. Every lot is high, dry and slightly. Lethbridge and Central Avenues, each of which is 80 ft. wide, will be the future business streets of the town. The present traffic, in and out of Bow Island, is through our property.

Practically all of the lots which we offer are 50 foot lots, excepting several corners, which are 60 and 65 foot lots.

Prices of Lots from Fifty Dollars Up.

CAPITAL GOSSIP.

Society Takes Up the Wives of New Congressmen.

MANY CHARMING WOMEN.

But None Promises to Be More Popular Than Mrs. Pomeroy, the New Wife of the Newly Elected Senator From Ohio.

Dear Eliza—I have been visiting over in Washington for a week, and it is surprising how many new faces one sees there now, particularly at the Congressional Women's club, where the wives and daughters of members of congress congregate. You see, the last election made many changes in the personnel of congress, and the new people who arrived in March are as yet practically unknown quantities. Every one is wondering just where the wives and daughters of the new members will fit into the social scheme. There is the state of Ohio. Until recently the wives of the senators from Ohio have occupied a conspicuous place in the society of the capital. Mrs. Hanna and Mrs. Foraker were leaders whose era will not soon be forgotten. Senator Burton was no wife, and the late Senator Dick cared little for social leadership. Every one is wondering how it will be with Mrs. Hanna Pomeroy, the wife of Senator Dick's successor. Both Mr. and Mrs. Pomeroy are particularly charming persons, and although one can often see these senators' wives, it is frequently by happenings that they come to themselves are lacking in savoir-faire. Both the Pomeroyes are equipped to shine in society if they have any taste for it, and Washingtonians are hoping that they have, for every one is pleased with this simple, unpretentious couple.

Mr. Pomeroy presided. Mr. Johnson discovered that the young chairman had many ideas in common with himself, and so a great friendship sprang up between them.

Mr. Johnson was instrumental in having Mr. Pomeroy a candidate for the nomination of governor when Governor Harmon first was nominated. The defeated aspirant turned in to the senate cordially for his successful rival that Mr. Harmon was immensely gratified and has ever since been Mr. Pomeroy's friend.

To be senator Mr. Pomeroy resigned the office of lieutenant governor, to which he was elected only last November, when Governor Harmon was elected for a second term. In all her husband's career Mrs. Pomeroy has been his most enthusiastic helper. He never appeared in the public limelight, but her advice and assistance have been none the less present. It is remarkable, since so many people think that she owes her success to their wives, that they do not more generally champion those movements in which progressive women are interested nowadays. Mrs. Bryan, Mrs. Foraker, Mrs. Lohs, La Follette, Mr. Pomeroy, Mr. C. C. Roosevelt, Mrs. Taft and scores of other Washington women have been their husbands' best help in the carrying out of the stony path that leads to glory. Yet few of these women's husbands are arranged on the woman's side of public questions.

Speaking of women's progress, if you are at all up to date you will know that women suffragists. You may not have the courage to march down Fifth avenue, but in the 2000 new women recently, yet you must have a distinct leaning the suffrage way if you do not expect to be put down by smart women as an old fogey. Some one remarked recently that it is "only the old maid and the woman who are anti-suffragist now." The suffrage parade was enough to give color to this assertion, for a finer looking lot of women in any other movement has not yet been their comely, but there was a distinct air of good breeding about most of them. The ladies who wore side shirt waist makers were an intelligent looking set, and many of the college women in their elegant and graceful were veritable young goddesses. There were handsome actresses, too, but the actress settled one matter which the public has been making, and that is that the stage monopolizes all the good looking to march in the parade. Celebrity after celebrity in the world of letters and science and in the world of the stars have been recognized by our illustrious friends.

MABEL.

The Visiting Housekeeper.
An invention that simplifies house-keeping for the women who can afford her services is the visiting housekeeper.

Will the "visiting housekeeper" be accepted and popular? (The question) The profession promises, at any rate, to be novel and will doubtless find plenty of room among that ever increasing section of women who are prevented from doing their own housekeeping by delegating their household affairs to a consideration come in for a few hours every day and take the "things" over and over again. They are welcomed by the busy woman of the world, but the more domestic will find it in the "things" that they have to do for their hands as far as possible. Most women have a pride in "managing" their own affairs, even when pressed by other outside things that today absorb much of the time of even the housewife.

Woman, and the majority will never be too busy to rule in their own kingdom that some one displace.

Outdoor Tenes.

A factor of importance in the improvement of a child's health at this season is plenty of outdoor exercise, especially in the morning. The child's body is apt of growing things. Exercise and fresh air are required for a good complexion. The child's body is apt of growing things. Exercise and fresh air are required for a good complexion. The child's body is apt of growing things. Exercise and fresh air are required for a good complexion.

Distiller and fresher food, a laxative if needed, blue sky and the earth beneath are principle which a child should grow up.

So why send for the doctor when you need out of two these things and a little other good sense will "do the business?"

Pineapple Par the Throat.

The juice of the pineapple contains a chemical principle which has the power of softening and loosening the membrane found in the throat in dysphagia. When the patient is sufficiently strong the juice pressed from a ripe pineapple should be taken three or four times in tablespoonful doses, after having been used as a gargle and mouth wash, should be repeated as many times as desired.

HE IS CABINET TIMBER

THAT IS WHAT THEY SAY OF GUTHRIE AT OTTAWA.

The Member for South Wellington is One of the Best Men in the Canadian House of Commons and His Work—His Father: Has Done Four Years of Public Service and Much Has Done Elsewhere.

The first thing that the Parliamentary Guide says about Hugh Guthrie is that he is the son of Donald Guthrie, K.C., and that means a lot.

His work on the member for South Wellington just as surely as it does on the duties of Donald Guthrie in change of ten years of public service to his credit, and his son already has eleven.

He is a fine man of letters and a good correspondent to tell you something about the work of the member for South Wellington just as surely as it does on the duties of Donald Guthrie in change of ten years of public service to his credit, and his son already has eleven.

He is a fine man of letters and a good correspondent to tell you something about the work of the member for South Wellington just as surely as it does on the duties of Donald Guthrie in change of ten years of public service to his credit, and his son already has eleven.

Local Topics.

House to rent. Apply A. J. Hines, Bow Island.

R. H. Wilmot left on Wednesday night for Calgary, where he will spend a few days on business.

A. Ludtke, who has been residing in eastern Saskatchewan for a few months, returned to Bow Island Tuesday morning.

Dr. Agnes, dentist of Medicine Hat, will make his next visit to Bow Island on Nov. 22, and will remain at the Myrtle Hotel for three days.

S. H. Simmons, homestead inspector for the Lethbridge district, and who is well known in Bow Island, has resigned his appointment.

Mr. and Mrs. F. Sutton have moved into town for the winter and are temporarily occupying the house on Bell St. formerly used as a tinmith shop.

Arrangements have been made to deliver water on Tuesday, Thursday and Saturday of each week. Household holders remember this and store up accordingly.

The ladies of All Saints' church (Church of England) will be 'At Home' to all their friends in Hoaglin's hall on Thursday, December 7th. A box social and dance will be held in connection with the above.

Mr. C. A. Magrath has been appointed to a seat on the International Waterways Commission. Mr. Magrath has been connected with the West for many years and few men know its conditions or requirements better than he. With him upon the Board, it is a cinch it won't be purely an ornamental one.

Gold has been discovered near Stettler, upon the Red Deer river, and the sand runs \$170 of pure gold to the ton, so says a despatch from that town. A quantity of platinum has also been found and runs about \$18 to the ton. We shall now await prospectus by some generously disposed whirlwind company. The shares, we presume, will be somewhere about ten cents apiece, or three for a quarter.

Stray Topics

The Provincial Government announces the inauguration of a railway policy for the north. At Edmonton, apparently, the south doesn't exist.

Our excellent water service, which had been temporarily put out of business through error—well, a temporary breakdown, was resumed on Tuesday morning.

We have it upon the authority of our two estimable townsmen, Chuck Chien and Charley Yip Yen, that there will be many changes made in Bow Island this week.

We are certainly getting extremely this year. A couple of months ago we had a "land-slide," now it is a snowslide. The next remarkable thing, we presume, will be the completion of the local telephone.

There are several questions affecting the town at the present time, and if any of our readers are sufficiently interested to explain their views publicly, the "Review" extends an open invitation to use its columns for this purpose. All communications will be treated in the strictest confidence.

A certain amount of criticism has been heaped at our city rulers this week regarding the arrangement made with the C. P.R. upon the water question. Householders, however, remember that \$2c. a barrel is a big reduction from the \$3c. or \$4 that they would otherwise have had to pay. The question of furnishing a permanent water system is a problem that the new Town Council will have to solve. In the meantime, the present arrangement is about the best that could have been made under the circumstances.

The De Alvas Concert Company will commence a series of free entertainments in the Odd Fellows' hall on Monday night, November 20th. The company, presenting a program of up-to-date refined vaudeville specialties. The company comes well recommended from the surrounding towns and will be one of the best shows that has visited Bow Island. The entertainment is free on Monday night and will undoubtedly attract large crowds.—Adv't.

That Feeling of Content

after having dined well can be your daily experience when you dine here. Our foods are tempting and delicious, our coffee, tea, and beverages of all kinds are suited to the refined palate, and our cigars are a dream to the man who loves a fragrant cigar and a good smoke after a satisfactory meal at BRICKLEY'S, The City Restaurant

Bow Island Lodge No. 80 I.O.O.F.

Meets in Lighthouse Hall, Bow Island, every Wednesday night at Eight p.m. Visiting brethren cordially invited. S. G. Jamieson, W. J. Cotton, N.G., W. S. Donnelly, Rec. Sec'y.

W. Birmingham, auditor, and F. Sands, acting manager, of the Pioneer Lumber Co., were in town this week.

Protect Your Property
